

DLN Frameworks / Faculties on the campus

Keep us aligned. Make us consistent and coherent. Give us areas of improvement to work on.

Communications

Underpins everything we do. The foundations. Human interaction. Communications. Spotlight moments and Laswells statement.

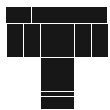

System mapping/Project Engineering and architecture

The principles that Planning. Research analysis and discovery. Modelling initial strategies and design directions.

8. Stage Process/Management

Project alignment, management, momentum. Resources, budgets. Tasks, stages, Phases. Briefing and signoff. Decision making.

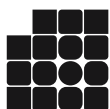

Workbench/Tech/Vocational

How projects move through the process from a technical perspective. The cool face of making. Artwork, code, printers, servers etc.

A.P.E.S.

Creative thinking, Critical thinking and decision making.

Identity Systems

Understanding brand identity systems and identity systems per se. Our roles as co-producers of systems and our work within existing systems. Knowing what identity systems are and how to break and fix them. Principles. Ethics. Protocols.

Solport Sessions

Interaction with clients, peers, students. The tools and devices, channels and content we use to work in the world.

Value Filters

Keep us aligned. Make us consistent and coherent. Give us areas of improvement to work on.

Commercial

Underpins everything we do. The foundations. Human interaction. Communications. Spotlight moments and Laswells statement.

Human

For our clients and their colleagues and customers. We care about well being.

Social

We despise bad design and ugly things, AI slop, marketing bumf and wastefulness

Environmental

Sustainable and respectful as evidenced by our studio and the land we are rewilding and conserving.

Campus pipelines

Keep us aligned. Make us consistent and coherent. Give us areas of improvement to work on.
