

DESIGN

Logos

We design logos from the ground up. A mark that holds when you are small, and still holds when you grow.

DESIGN

Brand identity systems

A name, a logo, and the identity around it. A system you can actually work with, not a look that dates.

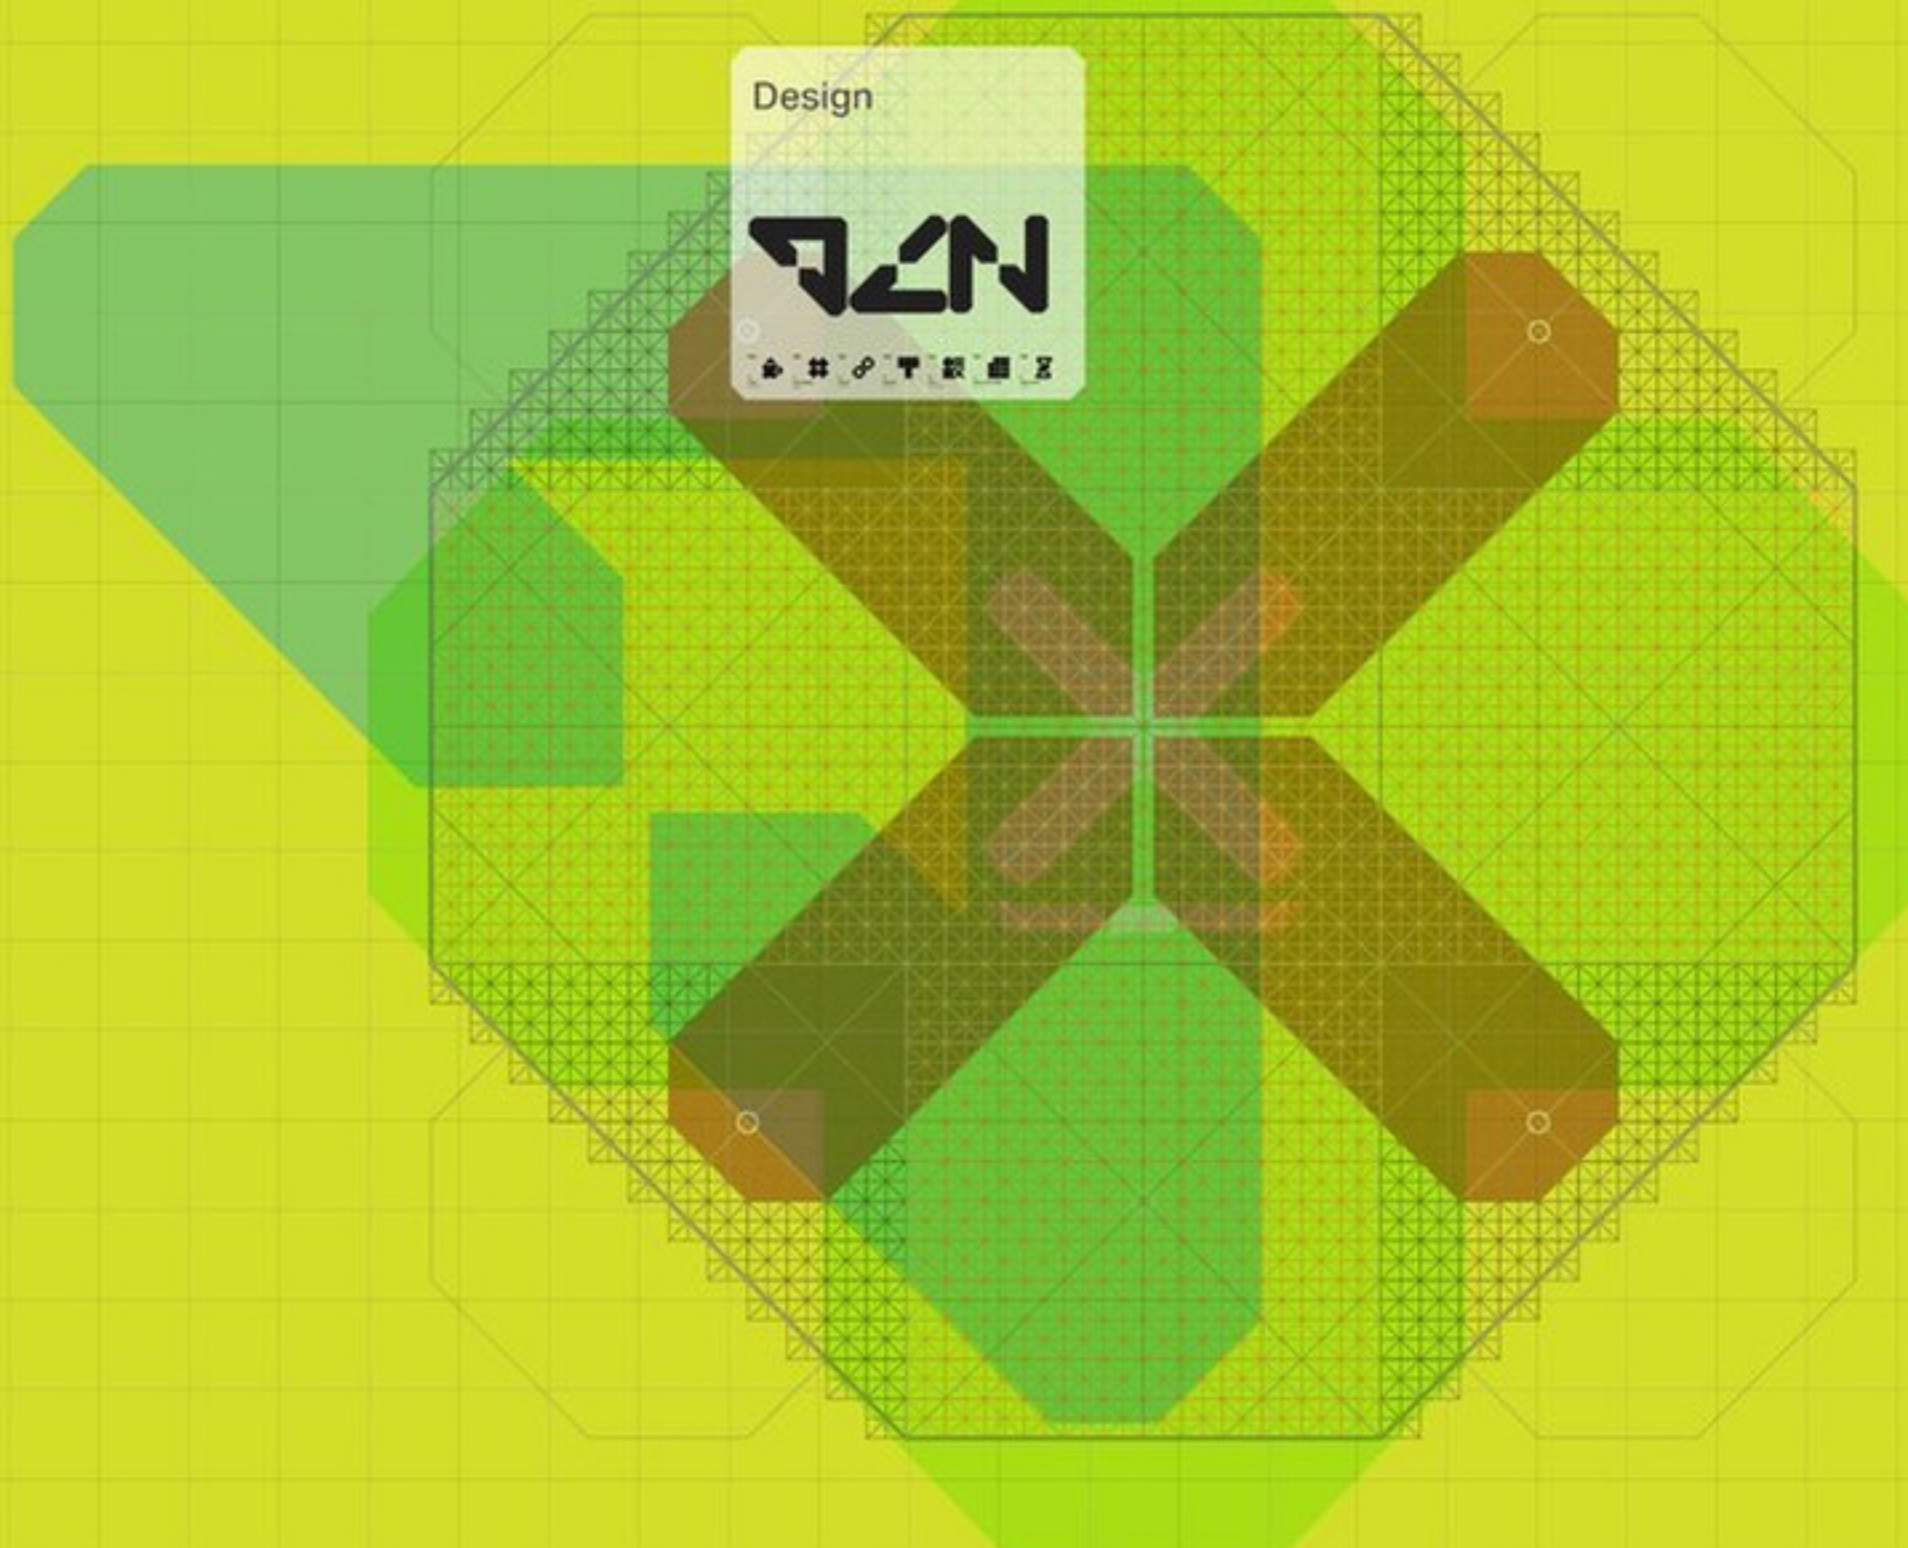

DESIGN

UI

Screens that sit with the rest of the brand.
Same discipline on a phone as on a page.

DESIGN LAB NORTH

Design

Identity. From the ground, or a refresh.

Logos

Brand identity systems

UI

Design for print

Packaging

DESIGN

Packaging

Boxes, labels, the unboxing. Physical work with the same care as the identity.

DESIGN

Design for print

Stationery, literature, signage. The things you hold, not only the things you scroll.

STRATEGY

Brand strategy

Who you are, said clearly. A direction the rest of the work can follow.

STRATEGY

Marketing strategy

What to say, who to say it to, and when. A year out, or three.

STRATEGY

Online strategy

How the brand lives on the web. Not a pile of channels — a plan.

STRATEGY

Start-up strategy

From a first idea to something you can actually start. We map it with you.

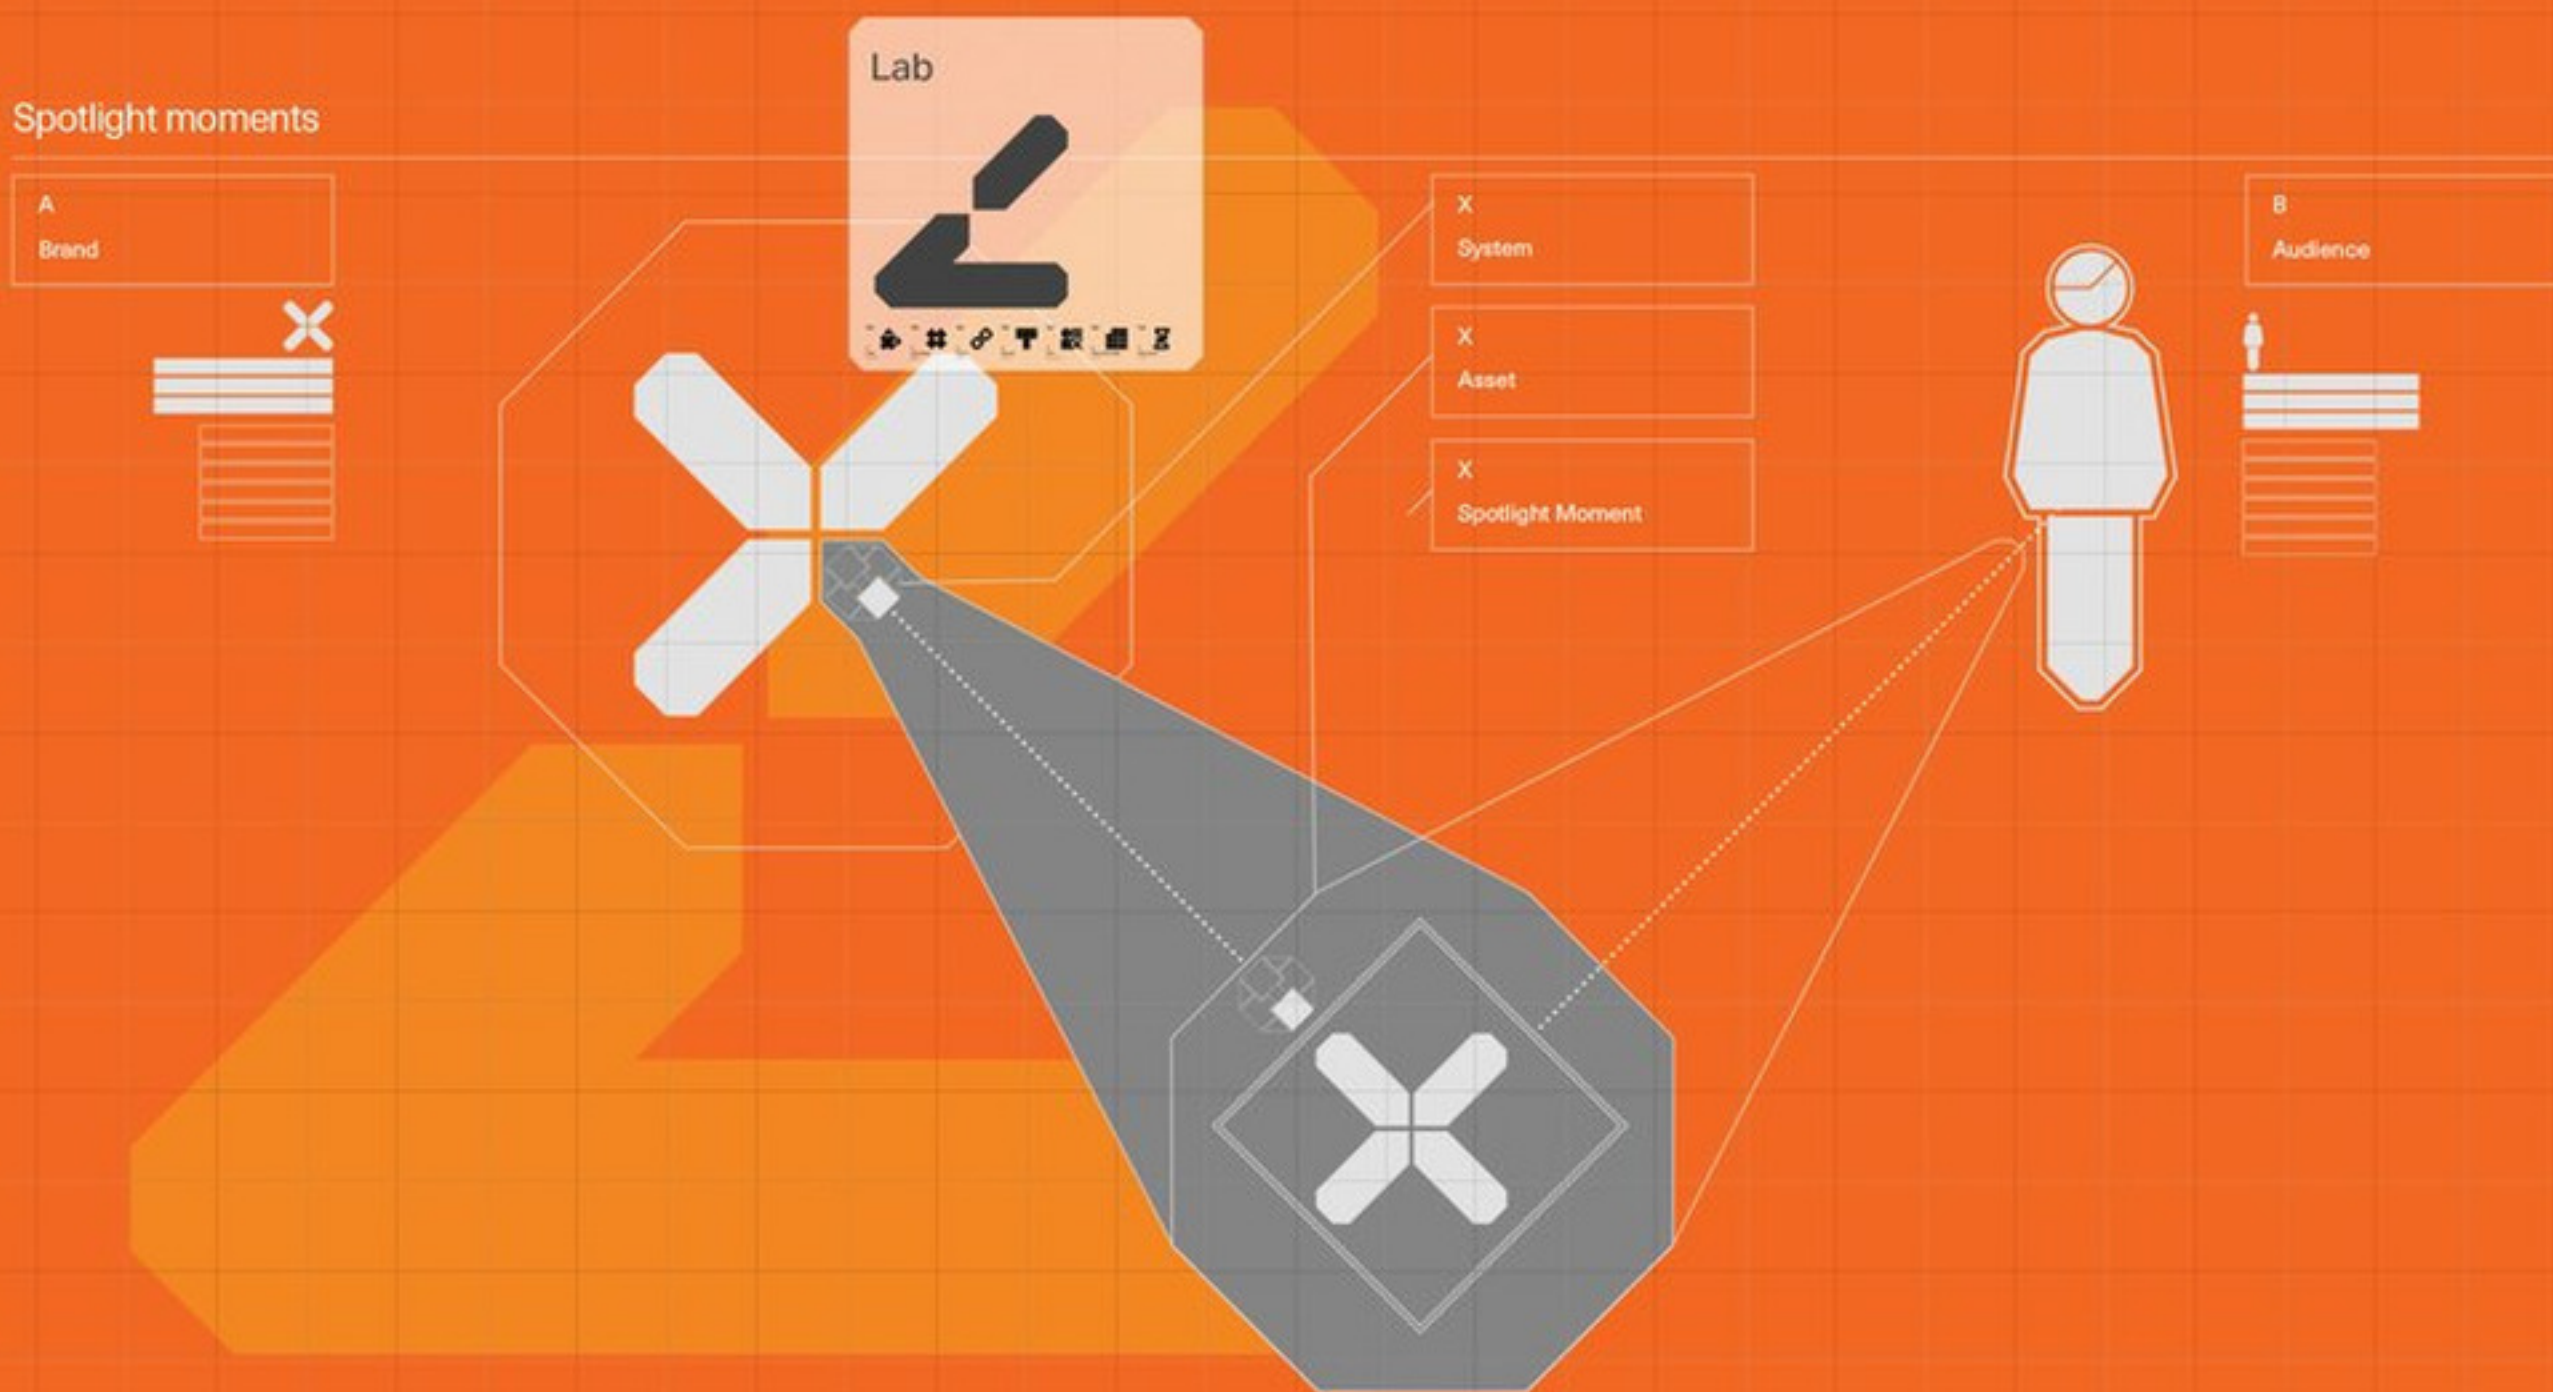

STRATEGY

Brand audits

A straight look at what you have. What holds, what is tired, what to do next.

Spotlight moments

DESIGN LAB NORTH

Strategy

Plans you can run. Counsel you can sit with.

Consultancy

STRATEGY

Consultancy

Sit-down counsel. Lectures, workshops, lab sessions. We write a blueprint you can run.

BUILD

Websites

New, from the ground. A site that can carry the brand, and keep carrying it.

AAA™

BUILD

Web apps

The working parts: bookings, dashboards, the tools behind the public pages.

AAA™

BUILD

Rebuilds

A rebuild sits with the people who made the last one, not over them. We take it on from here.

AA™

BUILD

Facelifts

The bones stay. The face changes. A lighter touch when that is what is needed.

AA™

BUILD

Live hosts

The site grows on a Design Lab North host while you watch. You leave notes. We come in.

AA™

DESIGN LAB NORTH

Build

Websites, web apps, and the host they live on.

Development

BUILD

Development

Systems that belong to the business — mapping, stock, the unglamorous parts that have to work.

AA™
